

# SOMETHING FOR YOU

Autore testo: Edoardo Gili

I should get up  
From the bed but I'd  
Never want to do that  
Laying here with your head on my chest  
it feels like

A caress to the heart  
A light in the dark  
I know it sounds too sappy  
But I have watched a lot of Disney

Baby don't you mind if I do  
Something for you  
Something good and make your wishes  
come true  
Let yourself be pampered  
Let's go for a walk  
Trying out to talk about our weirdest  
thoughts

Don't know what's my will  
What's a dream? What is real?  
Maybe it's hard to deal  
With what's going on right now in my  
twisted mind

But even though  
Don't know what tomorrow holds  
Of one thing I'm sure:  
If I look to the present all I see is you

Baby don't you mind if I do  
Something for you  
Something good and make your wishes  
come true  
Let yourself be pampered  
Let's go for a walk  
Trying out to talk about our weirdest  
thoughts  
Hug me and say it's okay  
Hug and say you stay  
For dinner and for the next day

I get lost in your eyes  
There is a flame that shines  
A worth discovering world  
A safe place to shelter

Baby don't you mind if I do  
Something for you  
Something good and make your wishes  
come true  
Let's go for a walk  
Trying out to talk about our weirdest  
thoughts  
Hug me and say it's okay  
Hug and say you stay  
For dinner, for tomorrow and the next  
day
