ONLYOFFICE DocSpace: version 3.0

The screenshot displays the ONLYOFFICE DocSpace interface. On the left is a sidebar with navigation options: Actions, Documents, Rooms (highlighted), Archive, Contacts, and Trash. The main area is divided into sections: a search bar, a list of document types (New documents, Contrats, Document, Spreadsheets, Form, Presentation, PDF file), and an 'Info' section for a room. The 'Info' section includes tabs for 'Members' and 'History', a 'General link' section with a 'Create new link' button, and a 'Users' list containing Admin (Me), Ahmad Bergson, Elizabeth Ryan, and Samantha Jones. A modal window is open, showing room options: 'Public room', 'Form Filling room', 'Virtual Data room' (highlighted), and 'Custom room'. Another modal window, 'My profile', is also open, showing user details for Samantha Jones, including Name, Email, Password, Language (English), and Type (DocSpace owner).
