Savox Secures Third Consecutive Order for Advanced Dismounted Systems from a NATO Country Police Force

Savox Communications, a global leader in mission-critical communications and hearing protection solutions, is proud to announce the receipt of a significant new order from a Police Force in a NATO member country. This marks the third consecutive order from this prestigious client, underlining their continued trust in Savox's.

The contract, valued at several millions, encompasses the delivery of the Dismounted System for Dual Radio Use, which includes:

NC-200 Tactical Neckband Headset

Trics C2 Communication Control Units

The Savox's Dismounted System ensures seamless communication across dual radio channels, empowering law enforcement teams with superior situational awareness and operational efficiency during critical missions.

"We are honored for the trust in Savox," said Marcus Österberg, Sales Director at Savox Communications. "This order reaffirms our commitment to delivering innovative solutions tailored to the demanding needs of modern law enforcement and military operations."

Savox's solutions are renowned for their ruggedness, versatility, and ease of integration into diverse operational environments. The system provided under this contract exemplifies Savox's dedication to enhancing communication capabilities in the field, ensuring users can perform their duties with the highest level of safety and effectiveness.
